Linguistic Resources

In this directory are the following resources:

- **corpus.csv**: the corpus built from collected reviews on Google Places
- **liwc-filtred.txt**: the lexical informations filtred from LIWC in a more acessible format for algorithms to run.
- **dsl.txt**: the domain specific lexicon built to be compared with LIWC.

The construction methodology for both **corpus** and **dsl** are described in the paper.

If you intend to use those resources, please cite:
